

## FEE-FOR-SERVICE

### What is Fee-For-Service?

Think of this as Pay-As-You-Go. Services are given and billed dependent on care received without the commitment of our direct primary care membership.

### What is Direct Primary Care?

An unparalleled relationship with a physician that includes access to medical care throughout the month for a flat monthly fee.

By not billing insurance companies, we are able to both save you money and provide fair, transparent pricing. Please email [drkate@morepediatrics.com](mailto:drkate@morepediatrics.com) for questions regarding our pricing or services.
